Explore the Outdoors with TO Extreme Off Road

By Scott Dixon, Sales & Marketing Manager,
Twin Oaks Industries, Inc.

TO Extreme Off Road™ is a division of Twin Oaks Industries, Inc., an established company located in central Kansas. Due to Twin Oak's desire to maintain their cutting edge and innovative product offerings, the company expanded their product line to include affordable, functional, reliable and customizable overland trailers. The TO Extreme Off Road line of trailers are designed to go where you want to go. Whether it's down an old dirt road, or hill hopping on a road less traveled, TO Extreme Off Road has the solution for you and your customers.

With a love of the outdoors and 40 years of manufacturing experience, Twin Oaks ventured boldly into the off-road market in order to fill the current lack of affordable, but durable, off-road trailer units. The company saw a need to develop, test and bring to market a versatile, no-nonsense off road utility trailer that can tackle even the toughest

four wheel drive trails. These trailers were designed by off road enthusiasts for off road enthusiasts.

The standard features of these trailers will exceed your customer's expectations. All of the following features are included in the standard base unit: UL-lined fenders and frame, durable powder coated body panels, LED brake and marker lights, a 2000 lb Timbren axle-less® suspension package, premium off-road tires, an adjustable cargo management system, a forward cargo rack, a lockable tailgate, an automotive grade wire harness and a 2" rear receiver.

The 60" Rugged 'N Ready High Country Trailer™ is built to last and has a base weight of approximately 860 lbs., which allows this a trailer to be towed behind almost any vehicle, but is still rugged enough to withstand the toughest trails. With 35 cubic feet of storage space and 20 inches of ground clearance, the Rugged 'N Ready High Country™ trailer is designed to follow wherever adventure takes you, no matter what terrain you traverse.

For customers that are looking for a larger trailer option, the 72" Rugged 'N Ready Backwoods™ trailer is recommended. With over 50 cubic feet of storage, 20 inches of ground clearance, a 3500 lb Timbren axle-less® suspension, surge hydraulic brakes and loaded with the same standard features listed above. The Backwoods™ trailer has a base weight of 1160 lbs.

Custom upgrades are also available, including a heavy-duty rack option, heavy-duty steel construction-UL lined hinged lid or a Retrax® retractable lid. Custom color paint is available at an additional charge. Multiple models of 23 Zero brand roof top tents are also available, and these tents all include a removable annex with floor, super fine insect mesh on all windows, sky view windows, 3" high density mattress, and a 600G PVC travel cover which allows you to camp comfortably wherever life may take you.

TO-Extreme Off-Road Trailers are certified by NATM's compliance program and proudly display NATM compliance decals. These trailers meet industry established standards and U.S. DOT's Federal Motor

Vehicle Safety Standards and regulations, and all trailers are VIN identified.

TO-Extreme Rugged 'N Ready trailers have been featured in Wheels Afield and JP Magazine, shown on The Sportsman Channel on the show Border to Border, and listed in several magazines and websites as one of the Best New Off-Road Products. Their trailer will be featured at the Innovative Creations Booth at the SEMA show in Las Vegas, Nev. Oct. 31- Nov. 3.

These trailers have national exposure and demand, and the company is currently looking to add trailer dealers in your area! Visit their website at www.to-extreme.com to browse the product offerings and videos.

TO Extreme Off Road™ is actively seeking dealers across the U.S., and looks forward to having you join the team. As a dealer, you will have the opportunity to offer a truly unique and profitable item. The company offers state dealer territories to maximize market penetration, allows dealer installed options and upgrades, warranty and warranty service, MAP pricing policies, customer financing options, professional marketing materials, and quality products the company stands behind 100 percent.

TO Extreme Off Road™ can be reached anytime by their website www.to-extreme.com or by phone at (785) 833-2120. TO Extreme looks forward to doing business with you! ■
